

High Pressure Gun

HP 1500S-V-PN

Description:

The HP 1500S-V-PN is a high pressure jetting gun which incorporates a pneumatic control valve and an internal on-off valve into its design.

The pneumatic control valve allows an operator to remotely control additional valves and to trigger complex control systems, which makes operation safer and more comfortable.

Standard equipment includes; A trigger safety guard and latching trigger lock to prevent unintentional use, forged steel pressure housing and light weight polymerized hand grip

Advantages:

High safety standard.

Turnable hand grip.

Fully encapsulated polymerized hand grip offers high tensile strength and excellent resistant to most chemicals.

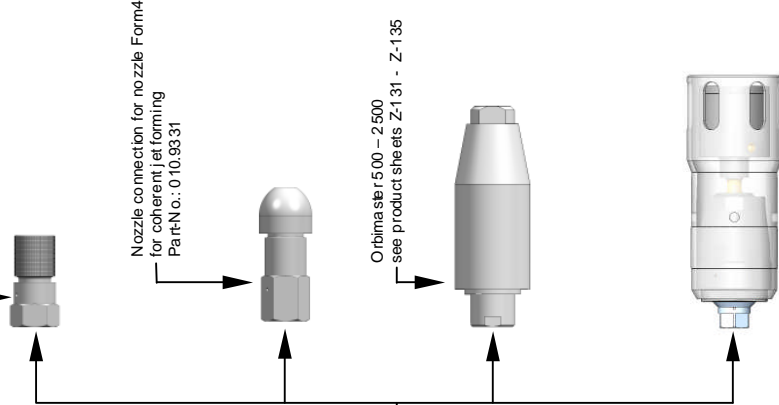

All functional parts are protected from dirt and water invasion.

Technical data:

Part-No.:	001.1696
Operating pressure:	max. 1500 bar
Medium temperature:	max. + 100°C
Recoil force perm. Without body support:	max. 150 N
Recoil force perm. With body support:	max. 250 N
Weight:	appr. 3,0 kg
Overall length:	appr. 460 mm
Overall height:	appr. 196 mm
Overall width:	appr. 72 mm
